ANANYA
Student

PROFILE

Hello there! I'm Aashna , a passionate first-year student pursuing a degree
in Computer Science and Engineering. Technology has always fascinated
me, and I'm thrilled to be delving into the world of coding, algorithms, and problem-solving.
During my first year, I've already begun to immerse myself in various programming languages and tools, from Java and Python to HTML/CSS
and JavaScript. I've also participated in coding competitions and hackathons, where I've had the opportunity to collaborate with peers and
tackle real-world challenges head
